to us from our own State, adequately to supply our native people white and colored, as well as our increasing alien population with the Holy Scriptures, there is another call no less imporative. We are put in trust with the gospel, not only for our own sake, but that we may proclaim it to every creature. We are told that there are 450,000,000 among the nations, into whose languages no word of Holy Scripture has as yet been translated.

Holy Scripture has as yet Deen translated.

"Every missionary agency in the forcing field, which, from the beginning, has depended almost entirely upon the great national Bible societies for their versions of the Holy Scriptures, would be paralyzed if their assistance were withdrawn. The question confronts each one of us, What part have I in adding our own American Bible Society in the costly work of translating and printing and distributing the word of God in those populous lands overshadowed by superstition and idelatry, in which but a few scattering rays of the light of God's truth have as yet been disseminated?

"It is clear that if we are as a society worthly to discharge our responsibility for Bible work, both in the home and foreign field, there must need be a very large increase in our contributions.

"It will be well for us to refer to the contributions made to the Bible Society of Virginia during the last ten

world."

The speaker also stated that by edict of the viceroy the Bible had been made a text book in the Chinese schools of Hankow, "The Bible is, indeed, the vitalizing force in the life of the people of the world to-day," he declared. In concluding, Dr. Havon told of an old man still living in a little town in New Jersey, who first translated the Bible into Japanese, and who on his nineticth birthday was honored by the Mikado with the star of the highest order in the empire.

Officers Elected.

At the conclusion of the service the election of officers for the ensuing year took place, resulting as follows:

ANNIVERSARY OF BIBLE SOCIETY

Reports Received, Officers Elected, and Fine Address Heard Last Night.

Last Night.

The ninety-fourth anniversary of the Bible Society of Virginia was cole-brated yesterday, with suitable exercises. The society was founded in this city in the spring of 1813, three years previous to the organization of the American Bible Society, of New York, now the largest Bible distributing agency in the world. The special guest on this anniversary, and the speaker at the public exercises last night was Rev. William Ingraham Haven, D. D., corresponding secretary of the American Bible Society.

The society is an interdenomina-tional body, having for its object the distribution of the Scriptures, giving copies to the destitute and needy, and selling them at cost of manufacture to all others. During the past year a close form of alliance has been formed between the Virginia organization and the American society, whereby the for-mer becomes a greater sharer in the national and foreign work of the lat-ter. The American organization does Thina and other foreign countries the issuance of the Scriptures in ous foreign languages.

Reception Yesterday.

A handsome reception was tendered to Dr. Haven by Mr. John L. Williams, an ex-president of the Virginia Bible Society, yesterday afternoon. A large number of gentlemen, including the members of the board, ministers of the lite and expresentatives of various cal-

Remarks About Nourishing Food,

"A physician's wife gave me a package of Grape-Nuts one day, with the remark that she was sure I would find the food very beneficial, both for my own use and for my patients. I was particularly attracted to the food, ag at that time the weather was very hot and I appreciated the fact that Grape-Nuts requires no cooking.

"The food was deliciously crisp and most inviting to the appetite. After making use of fit twice a day for three or four weeks, I discovered that it was a most wonderful invigorator. I used to suffer greatly from exhaustion, headaches and depression of spirits. My work had been very trying at times, and indigestion had set in. 'Now I am always well and ready for

"Now I am always well and ready for any amount of work, have an abundance of active energy, cheerfulness and mental poise. I have proved to my entire satisfaction that this change has been brought about by Grape-Nuts food.

"The fact that it is predigested is a very desirable feature. I have had many remarkable results in feeding Grape-Nuts to my patients, and I cannot speak too highly of the food. My friends constantly comment on the change in my appearance. I have guined 9 pounds since beginning the trae of this food." "There's a Reason." Read "The Road to Well-wille," in pkgs.

HUNDRED SCHOOLTEACHERS

Had Fine Time Here and Expect to Enjoy Themselves at Exposition---Get Holiday on "Moving Day" in Syracuse.

A party of about one hundred and twenty schoolteachers from Syracuse and Utica, N. Y., arrived in Richmond yesterday morning enroute to the Jamestown Exposition, and spent the day seeing the sights of the city. They are registered at the Lexington, and will leave for the exposition at 7 o'clock this morning by boat

To be perfectly accurate there are one hundred and eleven in the party here, about half a dozen having stopped over in Washington and returned home from that point. All save seventeen are from Syracuse, the rest being from Utica.

GARBAGE LAWS

Code of Regulations to Be Promulgated by Street Cleaning Department.

TO STOP POLUTION OF RIVER

The Council Committee on Street Cleaning, at its meeting last night, adopted a code of regulations governing the work of the Street Cleaning Department in the removal of garbage, and ordered 20,000 copies printed for distribution. It is the purpose of the department to enforce these regulations hereafter, and require tenants and householders generally to comply with them.

The committee laid on the table a resolution from the Council directing it to inquire as to the feasibility of the city's providing garbage cans for all

The department now has before the Finance Committee a resolution appropriating \$25,000 for additional street sprinklers, flushers, sweeping machines and men to keep the city cleaner this year than ever before. The committee is expected to take some action on this to-night

committee is expected to take some ac-tion on this to-night.

SuperIntendent Cohn reported that the four street flushers ordered on trial recently have been shippd from St. Louis, and will reach this city be-fore the reunion. They should be here much sooner, unless there is some un-usual delay en route. Each machine will flush a mile and a half of street a day.

A communication from the engineers department inclosing an article from the Engineering News relative to injury to pavements from the use of flushers, was received and filed, which is a polite way of pigeon-holeing it.

New Regulations.

Here are the regulations relative to removal of ashes and garbage and disposition of waste paper, etc., just as they will be printed and posted by the department:

BRYCE COMING TO SPEAK AT JAMESTOWN

Executive Mansion While in Richmond.

Mrs. J. Taylor Ellyson, of No. 10 East Franklin Street, acting president of tha Franklin Street, acting president of the Association for the Preservation of Virginia Antiquities, received yesterday from Hon. James Bryce, British Ambassador to the United States, a letter in which Mr. Bryce definitely announces his intention of coming to Richmond and accompanying the Association for the Preservation of Virginia Antiquities in their annual pilgrimage to Jamesiown Island, which this year, on May 13th, will celebrate the tercentenary of the Jamesiown settlement.

centenary of the Jamestown settlement.

During the time Mr. Bryce is in Richmond he will be the guest of Governor and Mrs. C. A. Swanson at the Executive Manston. When Mrs. Ellyson saw and talked with the ambassador at the Jamestown Exposition in Norfolk, he was doubtful in regard to his being able to attend the tercentenary celebration.

Subsequent conversations with Mr. Joseph Bryan, Dr. Thomas Nelson Pags and Colonel W. Gordon McCabe regarding the dignity and importance of the occasion, caused him to reconsider his decision and write Mrs. Ellyson to that effect.

The officers and members of the association are much gratified to know

Discussing this point further the commission says:

"It appears, however, that the nature of the contract whereby these mortgages were acquired is legitimate, and the result of the transaction appeared correctly in the company's annual reports, except so far as matter of charging payments of purchase money for said mortgages in commissions, which matter, while erroneous, does not seem to have worked injury to any one.

W. L. DOUGLAS

DO YOU WEAR W. L. DOUGLAS SHOES? IF NOT I BELIEVE I CAN GIVE YOU GOOD AND SUFFICIENT REASONS WHY IT WILL PAY YOU TO WEAR THEM.

I give the wearer the benefit of my thorough and practical knowl-edge of shoemaking, which has ex-tended over fifty years.

I give the wearer the benefit of my exclusive method of tanning the bottom soles, which makes them more flexible and gives longer wear than any other sole leather produced in this country.

As I am the largest manufacturer of men's fine Hand-Sewed Process shoes in the world, it is necessary for me to purchase leather and other materials in enormous quantities; the benefit of the very low prices I obtain I give to the wearer in superior quality over other makes.

If I could take you into my large factories at Brockton, Mass., and show you how carefully W. L. Douglas shoes are made, you would then understand why they hold their shape, fit better, wear longer and are of greater value than any other make.

W. L. Douglas, Brockton, Mass.:
Having worn the W. L. Douglas \$3.50
